### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest (taken in combination with the other claimed features) an electrolytic capacitor wherein the first conductive path is lopsidedly located in a marginal area of the anode electrode pattern on the cathode electrode pattern side; and wherein the second conductive path is lopsidedly located in a marginal area of the cathode electrode pattern on the anode electrode pattern side (claims 1-3); and an electrolytic capacitor wherein the first conductive path is lopsidedly located in a marginal area of each anode electrode pattern on a side where the cathode electrode pattern is positioned and wherein the second conductive path is lopsidedly located in each of a plurality of marginal areas of the cathode electrode pattern where the respective anode electrode patterns are positioned (claims 4-8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
